

2024 CFA Institute Research Challenge

The CFA Institute Research Challenge is a great test for all students who are bold enough to face it. But, like any great challenge, the opportunities and rewards it offers are even greater. This annual [global equity research competition](#) provides university students with hands-on mentoring and intensive training in financial analysis.

Working in teams, students gain real-world experience as they assume the role of research analysts and are judged on their ability to value a stock, write a research report, and present their recommendations.

How can I get involved?

You can organize a team to represent your university. Promote the competition to your friends & colleagues and field your best team and then prepare them to compete. Check our official website to find out more: www.researchchallenge.pl plus check [the official rules for 2024 edition](#).

What Can I Expect?

- The majority of local level participants indicated that they spent
- 100-150 hours researching their assigned company and assembling their report.
- 30 or more hours practicing and assembling their presentation.
- The majority of regional level participants indicated that they spent more than 60 hours preparing for the regional competition.
- At the local level, you may be responsible for covering the cost of travel and accommodation for all meetings and events. Contact your Local Host for more information.

2023 PARTICIPATION
